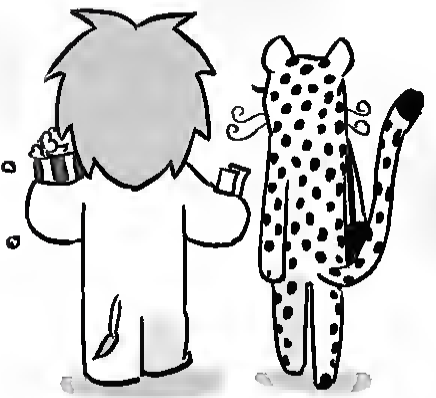
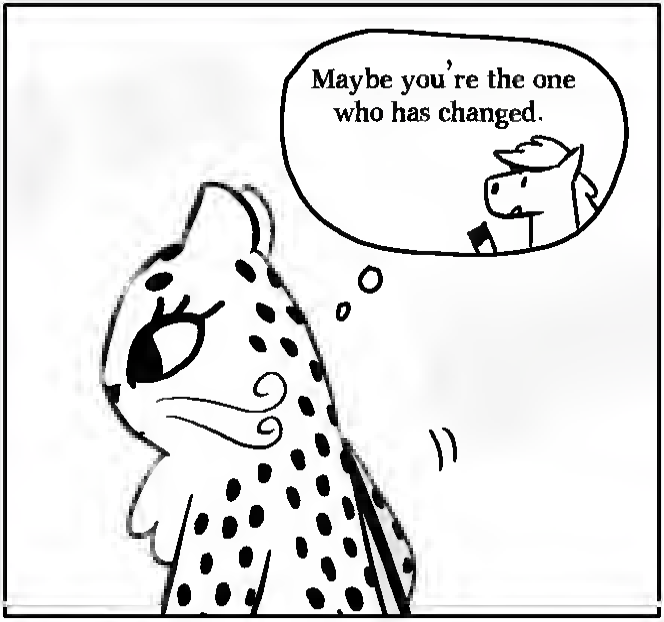
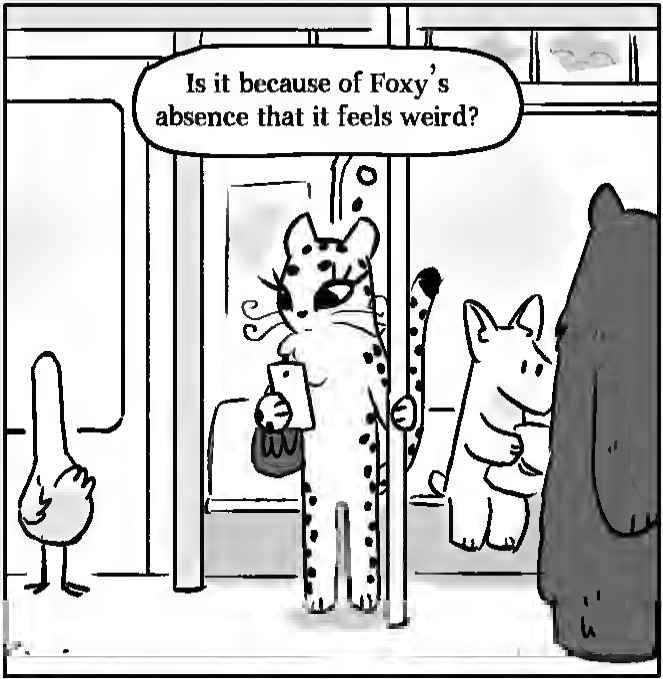
## Shall We Date?



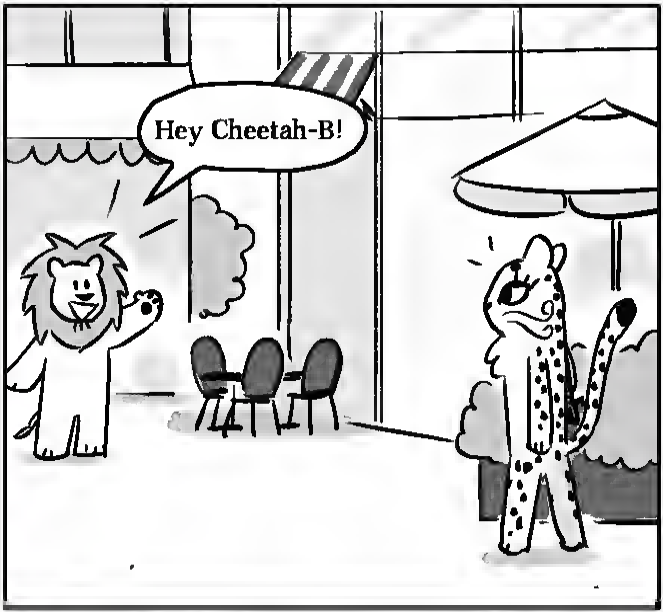


Maybe you're the one who has changed.

When Foxy was here,
we used to hangout as three.
Now it's only Leo and I...



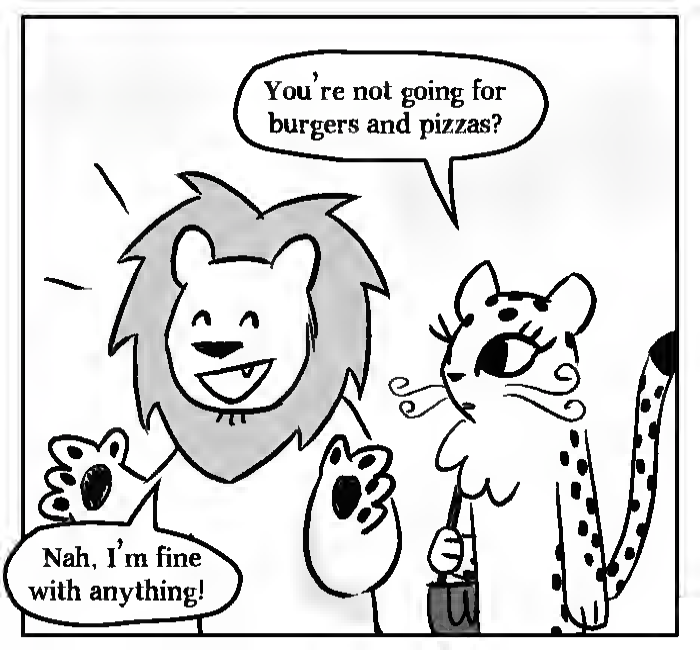
Is it because of Foxy's absence that it feels weird?



Hey Cheetah-B!

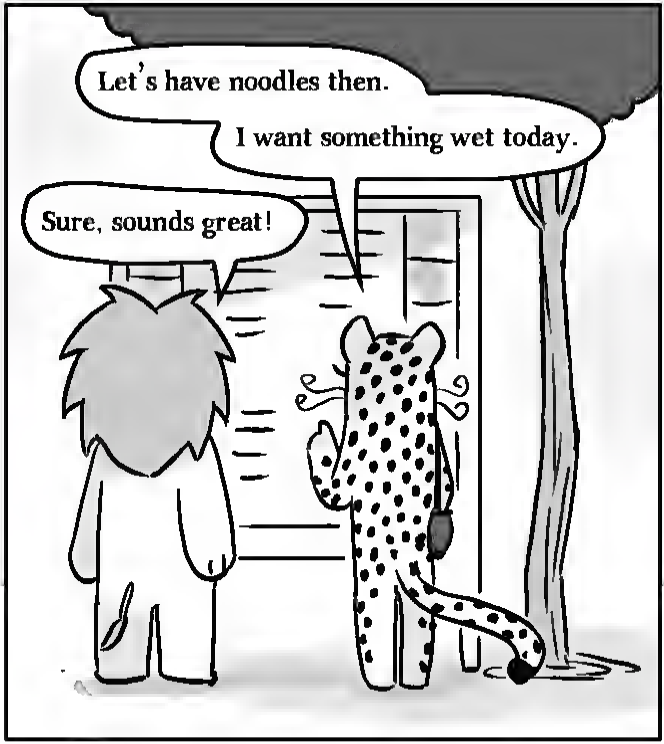
You're early. That's rare.
That's because the bus just arrived early!
ahaha ha
Came here 1 hour ago.

Anyway, what do you wanna eat?
Spaghetti? Thai? Salad? Dumplings?



You're not going for burgers and pizzas?
Nah, I'm fine with anything!

That's weird... He normally doesn't eat anything but fast food.
Check out the directory!



Let's have noodles then.
I want something wet today.
Sure, sounds great!

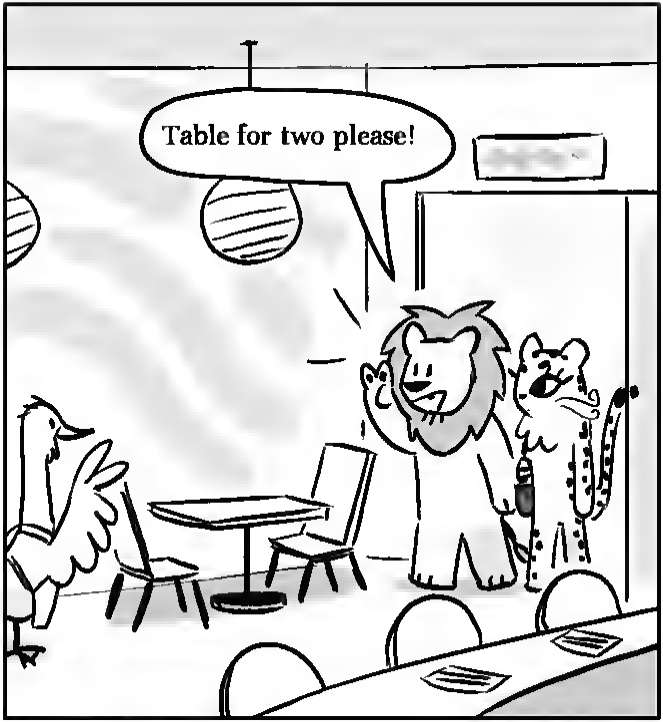


Table for two please!

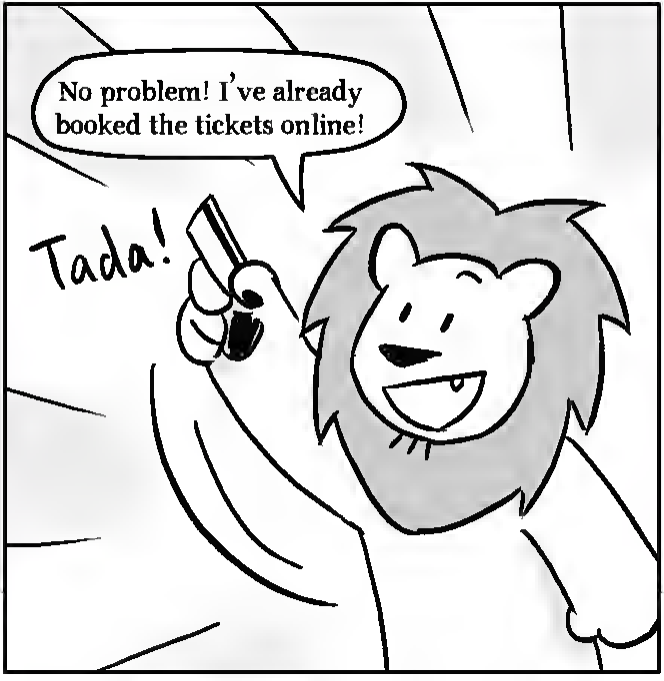
Thanks.
Weird... He never pulls the chair for me.

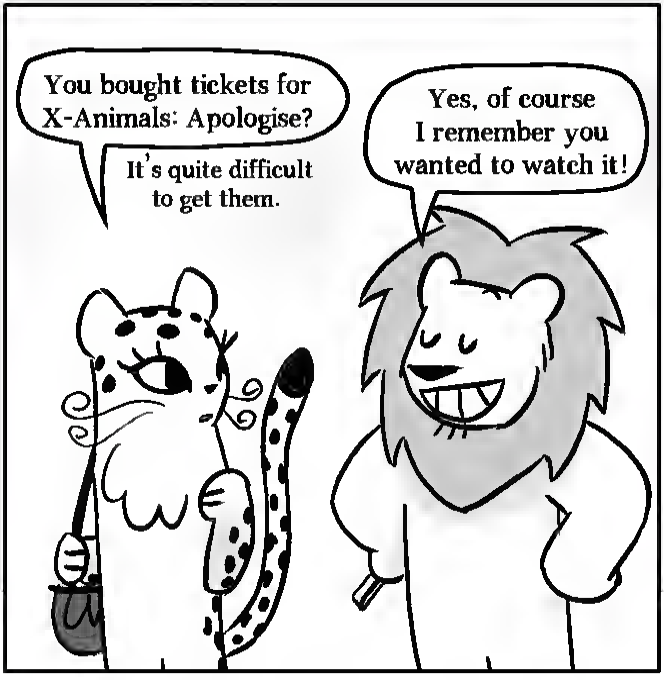
It tasted pretty good.
How much is it...
Nah, the meal is mine!

Weird... we usually split the bill.
And he never holds the door open.
Please!

It's crowded this weekend, the tickets are nearly sold out.



No problem! I've already booked the tickets online!
Tada!



You bought tickets for X-Animals: Apologise?
It's quite difficult to get them.
Yes, of course I remember you wanted to watch it!

BANG!
Ahhhhhhhhhhhh

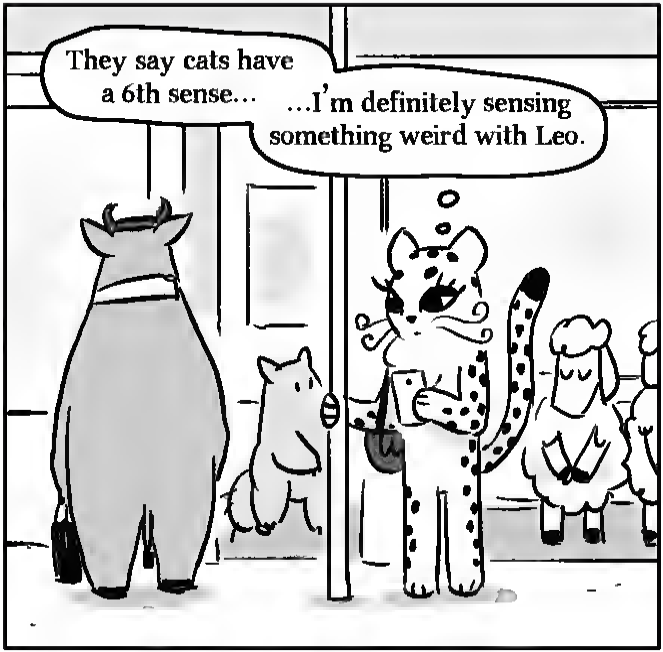
WOAHH!!
Ahh -- get off!!

Well, that was still pretty good, isn't it?
Scary-good
Yeah, but horror movies are not for me...

...Sorry about your arms.
No problem at all!
You're lucky to have me here or you'd tear the seats!

Are you okay?
Of course!
Just some scratches!
Doesn't hurt at all!
hahaha

...Thanks for the day.
Let's catch up next time.
But no horror movies please.
Sure! I had a great time too!



They say cats have a 6th sense...
...I'm definitely sensing something weird with Leo.

As if he's trying to ... woo me.
...Or am I the weird one? Am I thinking too much?

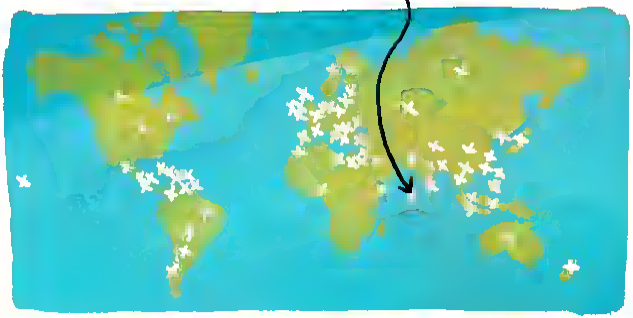
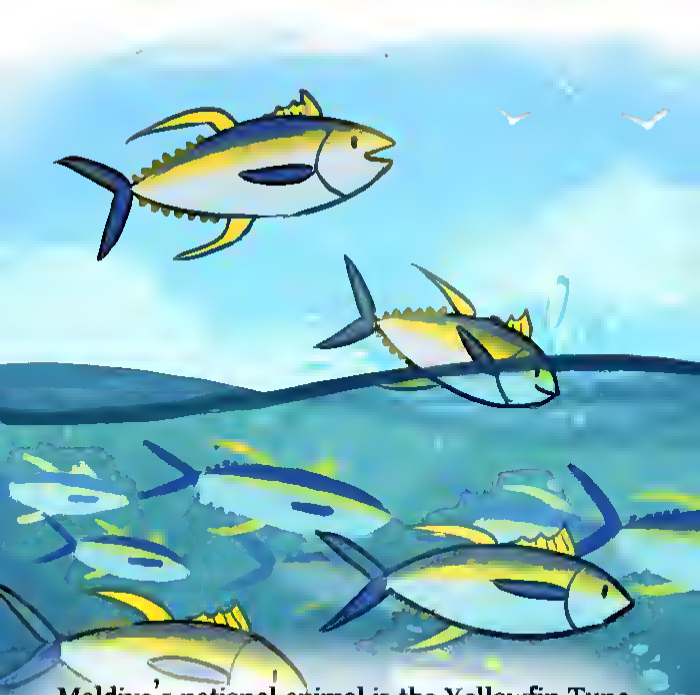
# Animals Around The World #71

Kaenyan27

Hi Bonnie, I'm from Maldives. We had a water shortage two years back and I remember not getting water from the taps for weeks! I'm not sure what our national animal is but I have a feeling it's probably a fish.

Readers from Maldives!





Maldive's national animal is the Yellowfin Tuna. They are one of the largest tuna species and their torpedo body shape makes them very fast swimmers. They can weigh over 300 pounds!
